Re: *Recent Inquiries to the Commission from the Public Regarding Work Associated with Construction of 69 kV Line - Sulphur Springs Valley Electric Cooperative, Inc. ("SSVEC") Rate Case - Docket No. E-01575A-08-0328*

Dear Chairman and Commissioners:

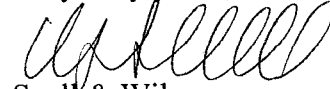

Earlier today, the Commission's Consumer Services Section contacted SSVEC regarding communications the Commission received informing the Commission that construction activities were still proceeding on the 69 kV line notwithstanding the discussion that occurred at the August 17, 2009, Open Meeting, as well as the Commission's adoption of Commissioner Newman's Proposed Amendment #1.

The purpose of this letter is to advise the Commission that the following morning, SSVEC immediately initiated the process to stop all construction-related activity at the site of the proposed line. To the extent there was any activity that occurred on August 18, 2009, that was observed by members of the public, such work related to staking that had previously been scheduled for that day and the word had not yet reached the workers performing the task to notify them that SSVEC was ceasing activities relating to the project.

I hope that this letter will alleviate any concerns the Commission may have regarding these inquiries.

Letter to Commissioners
August 19, 2009
